BTBC123 - PROGRAMMING FOR WEB DEVELOPMENT-I

HTML & CSS Tutorial Questions

Read this carefully before attempting the paper:

> *This paper contains two practical questions based on HTML and CSS.*
> *Each question describes a complete webpage to build, including its structure, form elements, tables, and required CSS features.*
> *Read every requirement carefully before you start coding, and make sure the page is properly aligned and readable.*

Attempt both questions. Marks and suggested time are indicated at the start of each question.

Question 1 — Student Registration & Academic Dashboard

Suggested Time: 30 minutes | Marks: 10

Create a Student Registration & Academic Dashboard using HTML and CSS.

Your Webpage must contain:

1. Header

Display:

"College Student Portal"

and a short subtitle:

"Student Registration & Academic Dashboard"

2. Navigation Bar

Create a horizontal navigation bar using Flexbox:

- Dashboard
- Profile
- Courses
- Results
- Logout

3. Student Information Section

Create a form containing:

- Full Name
- USN
- Email
- Branch
- Semester
- Date of Birth

Use appropriate HTML input elements.

The Branch and Semester fields should use dropdowns.

4. Course Selection

Create checkboxes for:

- Web Development
- Data Structures
- Database Management
- Operating Systems

5. Academic Performance Table

Create a table with:

Subject	Internal	External	Total	Grade
Web Development	25	65	90	A+
Data Structures	22	58	80	A
DBMS	20	55	75	B+
Operating Systems	23	60	83	A

6. CSS Requirements

You must use:

- Element selector
- Class selector
- ID selector
- Flexbox
- Borders
- Padding
- Margin
- Background colors
- :hover
- border-radius

The page should be properly aligned and readable.

Question 2 — College Event Registration Portal

Suggested Time: 30 minutes | Marks: 10

Create a College Technical Event Registration Portal using HTML and CSS.

The webpage should look like a real college event registration website.

1. Header

Display:

"TECHFEST 2026"

Subtitle:

"National Level Technical Symposium"

2. Navigation

Create a horizontal navigation bar using Flexbox:

- Home
- Events
- Schedule
- Registration
- Contact

3. Event Cards

Create 3 event cards:

Code Clash

- Type: Coding Competition
- Duration: 2 Hours
- Team Size: 1–2

Web Warriors

- Type: Web Development
- Duration: 1.5 Hours
- Team Size: 1–3

Tech Quiz

- Type: Technical Quiz
- Duration: 1 Hour
- Team Size: 2–3

Arrange the cards horizontally using Flexbox.

4. Registration Form

Create a registration form containing:

- Student Name
- Email
- USN
- Phone Number
- Select Event
- Team Size
- Gender using radio buttons
- Agreement checkbox
- Register button

5. Event Schedule Table

Create a table:

Event	Date	Time	Venue
Code Clash	15 Sept	10:00 AM	Lab 1
Web Warriors	15 Sept	2:00 PM	Lab 2
Tech Quiz	16 Sept	11:00 AM	Seminar Hall

6. CSS Requirements

Use:

- Flexbox
- Class selectors
- ID selector
- :hover
- Borders
- Padding
- Margin
- border-radius
- Form styling
- Table styling
- Card layout
